## Pheasants To Be Turned Loose At Beaver Lodge

Forty pairs of Chinese pheasants arrived at Beaver Lodge last week addressed to Rev. Geo. A. Shields and Ralph Carrell from the Provincial Game Commission, to be turned loose in the spring. This will be the second experiment to determine whether or not pheasants can live in this country. Two years ago a number of pheasants were shipped and turned loose at Saskatoon Island. Several hatches were seen at different points, but so far as The Tribune's information goes the whole flock has completely disappeared. A check-up on the recent shipment should definitely determine whether or not this type of bird can survive the severe winters of this country.

## Mr. and Mrs. Alex Ray Celebrate 40 Years Married Life

BEAVER LODGE, Feb. 14.—On February 8 Mr. and Mrs. Alex Ray, amidst a few close friends, celebrated forty years of married life. Mr. Ray is the owner of the Beaver Lodge in Perth County, Ontario, and Mrs. Ray in Aberdeen, Scotland. Of a family of seventeen, eleven are living. Short speeches were made expressing the hope that Mr. and Mrs. Ray would be spared to celebrate many wedding anniversaries. Mr. Ray replied in a most appropriate speech. He thanked the friends for their expressions of good will. He stated that in his opinion the Beaver Lodge district is the best section in western Canada. Turning his attention to the future, Mr. Ray observed: I have been over the Monksman Pass Highway as far as Stony Lake and what I saw convinced me that the grade is one of the easiest I have ever seen. He predicted great development in the country when the highway is finished. My partner and I have shared the sweat with the snow and we will continue to do so," remarked Mr. Ray in closing.

## Re The Domestic Freight Rates Into British Columbia

Grande Prairie, Alberta, February 14th, 1938.

The Northern Transportation, Grande Prairie, Alberta.

Dear Sir:

We note by Ottawa dispatches that Mr. Thomas Reid, M.P. for New Westminster, B.C., has on an order paper to bring before the House of Commons that the Railway Companies put into effect the domestic rate on grain going into British Columbia at the same rate as export, "which from the order paper is export is 26¢ per hundred pounds, domestic rate 32½¢ per hundred pounds."

I think, Mr. Editor, that it would be a good gesture on the part of organizations in the Peace River country to back Mr. Reid in this request, and also individuals could write a letter to him backing him in this. It is not necessary to put a stamp on the envelope as the House of Commons is in session, receive their mail free. It looks to me, Mr. Editor, that Thomas Reid is the only one who is trying to do something for the producers in Alberta. Now that we have lost the vote of Vancouver, B.C., and evidently fighting Jerry McGee must be on his way to the House of Lords as we hear nothing more from him, and in the words of a man I met here, "the water under the bridge have been luffed to sleep by the balm of the Pacific, and the water under the bridge is available, so let's get behind Tom Reid."

Yours truly,  
L. C. PORTEOUS.

The water pressure was very low, not being sufficient to break a window. The house is owned by C. C. Cady. Both the building and the furniture, it is understood, are partially covered by insurance.

Two rinks, piloted by Alex Dalgleish and C. G. Butcher, of Grande Prairie, respectively, swooped down upon the Edmonton annual bonspiel and, while both teams were in the hunt for a third goal for the home team, leaving a high lead over the visitors. Elva Ray of Beaver Lodge put a single-handed twelve to register for the blue and white uniformed aggregation from the west. She netted a fine goal after a neat play by Irene Hammett made through a scramble gave her the puck again. The order, not allowing the host's bowler fired in another pair of goals to send Grande Prairie up the ranks of high order, many rinks being defeated by the closest kind of a margin.

On Thursday night, with the skating rink alongside the curling rink lighted, the scene was a brilliant one.

## Judge Thinks School Division Is Invalid

His Lordship Mr. Justice Shepherd has expressed the view that the order of the Minister of Education establishing the Grande Prairie School Division is invalid for more than one reason.

His Lordship on January 31st heard the application for an injunction restraining the School Division from going ahead with the trial of the action brought by Lee W. Alward to contest the validity of the establishment of the division. It was argued on the application that the order creating the school division was invalid because the Minister had jurisdiction to make such an order and that there had been sufficient inquiry into the conditions prevailing in the district. Decision was reserved.

## Bright's Reward Boy's Bravery

Malcolme Allen, who lives at Niagara Falls, is a plucky youth. After the International Bridge over the Niagara River had collapsed, Malcolme climbed down into the Gorge, and rescued the plaque which had marked the boundary line between the U. S. and Canada, and which had been on the bridge for over forty years. Malcolme presented the souvenir to his father and mother, and, as a reward for his bravery, T. O. Bright & Co., makers of the well-known Bright's Wines, presented Malcolme with a handsome cheque.
